Profile

Dedicated computer science student with a strong foundation in Python, Java, MySQL, and PHP Laravel. Seeking a software developer intern position to apply my back-end development and database management skills. Eager to contribute to real-world projects while enhancing my knowledge in scalable web applications and software development

Education

Bachelor of Science in Computer Science : Data Structures, Algorithms, Web Development, Operating Systems

Sindh Institue of Management & technology

Pre Engineering

Allama Iqbal College

Matriculation

Sun Rise Children Academy

Skills

PHP (Laravel, Core PHP), ASP.NET Core, JavaScript,
HTML, CSS, C#

Professional Experience

Full Stack Developer

Realcore Solutions

Customized and deployed Dolibarr ERP, tailoring modules to meet specific business workflows and integrating new features for inventory and client management.

Integrated PHPMailer into custom APIs to enable secure and reliable transactional email delivery across multiple endpoints.

Modified and extended EasyAppointments, enhancing scheduling logic, UI components, and backend functionality to support multi-user booking and notification systems.

Collaborated in a LaravelScript/warehouse house environment, contributing to full-stack development using Laravel, ASP.NET [↗](#), and Core PHP.

Optimized backend logic, improved database performance, and ensured seamless user experience across web-based applications.

Projects

Music Management Web Application [↗](#)

Developed a fully functional Music Web APP with PHP Core.
